

## Trading Risk Disclosure

### **Past Performance is no guarantee of future results.**

Trading on the Forex market is not suitable for everyone. The high leverage available is often attractive to traders/investors yet it can certainly work against you unexpectedly. You should carefully consider your investment objectives, experience, and risk parameters. The possibility exists that you could sustain a loss of some, or all of your initial investment and therefore you should only use surplus funds. You should be aware of the risks, and seek advice from a certified trading adviser if you have any doubts. As with any margined investment, you should maintain a strict risk management system, but a market event or market movement may cause you to lose more funds than you deposit in your account. It should be understood that investments through any means, including but not limited to, currency trading, stock trading, futures trading, and other investment techniques, could involve high risk. There is always a relationship between high reward and high risk. **Only surplus funds should be placed at risk.**

CFTC RULE 4.41 - HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN LIMITATIONS. UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, SINCE THE TRADES HAVE NOT BEEN EXECUTED, THE RESULTS MAY HAVE UNDER-OR-OVER COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED TRADING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFIT OR LOSSES SIMILAR TO THOSE SHOWN.

### High Risk Investment

Futures and Options trading have large potential rewards, but also large potential risk and is not appropriate for everyone. **Only risk capital should be used for trading. Risk capital is the money one can afford to lose.** Be aware of the risks and be willing to accept them in order to invest in the futures and options markets. This is neither a solicitation nor an offer to Buy/Sell futures, stocks or options. No representation is being made that any account will or is likely to achieve profits or losses. **Past Performance is no guarantee of future results.**
